## CHASED WOLF FROM MRS. E. ASH'S DOOR

The Benefit Concert and Dance Held Last Week Netted Tidy Sum and Proverbial Hunger Wolf Will Have to Go Now.

The benefit concert held in the opera house last Friday evening was a decided success, both as regards the attendance and the character of the program rendered. The people of The Post-Colemanites at any rate—do not often have the pleasure of listening to a "home talent" program, and after hearing the excellent numbers rendered Friday evening by the Misses Williams, of Bellevue; Miss Taylor, of Hillcrest; Miss Todd, of Blairmore; and Messrs. Green, Shaw and Smith, of Blairmore; in addition to the selections of our own townspeople, one could not help feeling a rather keen regret that such a privilege did not occur with considerably more frequency. The large audience was quite apparently greatly pleased with the entire program, and any time the visitors from the neighboring towns return to Coleman they may feel quite sure that a most cordial reception awaits them.

The program was as follows:

1. Selection..... Coleman Band
2. Reading..... Mr. H. Clark
3. Song..... Mr. R. Green
4. Song..... Miss Williams
5. Pianoforte Solo..... Miss Rita Disney
6. Quartette..... Messrs. Barnes, Evans, Hayson, Coran
7. Song..... Mr. T. K. Crawford
8. Song..... Miss Taylor
9. Recitation..... Mrs. Allan
10. Selection..... Coleman Band
11. Song..... Miss Beck
12. Song..... Mr. J. R. Smith
13. Duet..... Miss Williams, Mr. Shaw
14. Pianoforte Solo..... Miss Todd
15. Song..... Mr. Shaw

Mr. Alex. Cameron performed the chairman's duties in a very efficient manner.

After the concert dancing was indulged in by a goodly number, for which the Coleman band provided music in their usual pleasing way.

The Coleman band provided music in their usual pleasing way.

## "HENPECKED HENRY"

Billy Oswald, the famous Scottish comedian, who plays the part of the henpecked husband in Henpecked Henry, is without doubt the best and most favorably known comedian in Canada. His early theatrical training was received in Scotland, but for the past few years he has been in Canada with such attractions as Aladdin, Floradora, etc. Mr. Oswald with this attraction has been surrounded with a number of first class artists, including Katherine Sheldone, an old time favorite in Western Canada, Beatrice Caruen, another former member of the Aladdin company; Lucille Thomas, Howard Murrell, Bruce Kent and a big Sunshine Girls' chorus. The plot of the play is farcical and deals with the trials and tribulations of a henpecked husband who innocently gets into a number of confusing situations that cause further henpecking, much to his disgust. The story is told in a very novel and out of the ordinary way and is a scream from start to finish. A number of the late song hits will be interpolated during the action of the piece by the different principals of the company and the Sunshine Girls chorus. The United Company, Limited, who are controlling this attraction, are offering it to theatre patrons with full confidence that it will prove a decided novelty and will give them more than usual satisfaction. It will appear at the Coleman opera house Saturday, October 27th.

## MASQUERADE BALL

The masquerade ball held in the opera house on Tuesday evening, under the auspices of the Pythian Sisters of Coleman, was a splendid success from every point of view. The attendance was large, music (by the band) was good and the floor was in excellent condition. The costumes were not elaborate, but they were good and some of the competitions were very keen. Dancing commenced at about nine o'clock and continued until midnight, when an excellent lunch was served by the members of the above order, after which the happy gathering indulged in "the light fantastic" until on into the morning hours.

The prizes in the different competitions were captured by the following:

- Best dressed lady—Mrs. A. E. Knowles.
- Best dressed gent—Mr. John Hadfield.
- Best representative costume (lady)—Miss L. Johnson, as Cleopatra.
- Best representative costume (gent)—Mr. Woods, as Uncle Sam.
- Special prize—Miss May Muir, as Little Boy Blue.

## CHILD BADLY BURNED IN FIRE AT FRANK

And Frantic Mother of the Little One Was Also Considerably Burned About the Head while Rescuing Her Child.

On Monday morning fire completely destroyed the residence of Vincel Ruzicka, a Bohemian miner of Frank, as well as the entire contents, including the remainder of his Saturday's pay—a sum of about \$12.50.

The fire is supposed to have originated from an overheated stove. Ruzicka was at work at the time and his wife had gone out for a few minutes on an errand, leaving an infant child asleep in the house in the meantime. When the fire broke out the flames spread with remarkable rapidity, and when the frantic mother appeared on the scene she at once made an heroic dash to save her child.

She succeeded in saving the little one though it was badly burned about the head and arms, and the woman was herself severely burned while effecting the rescue. Ruzicka has been making strenuous efforts to get onto his feet financially and was just getting to the place where he could see more prosperous days ahead, and this serious mishap is particularly hard on the little family. When the man came out of the mine he was not able to change his clothes completely due to the fire which had burned his belongings.

The residence adjoining a so caught fire from the burning building, but no very great damage was done to it.

## VISIT OF BISHOP ST. ALBAN'S CHURCH

Members of the Church of England and their friends in Coleman and Blairmore had the pleasure of welcoming the Bishop of Calgary on Sunday last, October 21st. His Lordship arrived in Blairmore on the morning train and preached to a good congregation at 11 a. m., the occasion being the second anniversary of the opening of the present Mission room. He afterwards celebrated the Holy Communion. During the course of an inspiring address based upon Psalm 84 he spoke encouragingly of the work of the church in Blairmore. Touching reference was also made to the losses which so many families are sharing through the claims of war (having himself lost a son, Captain Pinkham). He also dealt upon the valuable asset which a healthy church life is to every community.

During his stay in Blairmore his lordship was entertained at the home of Mr. and Mrs. F. Wright.

The Bishop arrived in Coleman during the course of the afternoon, being conveyed hither by Mr. C. Gower in his car. His lordship was the guest of Mr. and Mrs. H. G. Goodeve, who also gave an informal reception after the evening service.

There was a large congregation at St. Alban's church for the service at 7 p. m., when the Sacrament of Confirmation was administered to eight candidates, six of whom were from Coleman and two from Blairmore. The service, which was most impressive, opened with a procession of candidates headed by two church wardens, Messrs. H. G. Goodeve and H. W. Clark, during the singing of "Onward, Christian Soldiers" by the congregation. The candidates were presented to the bishop by the incumbent, the Rev. H. Clay, who also read the opening portion of the service, which was conducted according to the rite of the Revised Canadian Prayer Book.

Both candidates and their friends appreciated the encouraging and helpful remarks which his lordship addressed to them. Here, as in Blairmore, the bishop laid particular emphasis upon the Christian duty of social service and announced that steps were already being taken which he hoped would make this more effective in the different parishes of the diocese. The bishop was very pleased with the various additions to church furniture which had been made since he was last here and before leaving on the evening train expressed himself as satisfied with the work which was being done and said how greatly he enjoyed his visit.

## DR. WARNOCK WILL ACCEPT NOMINATION

Dr. David Warnock, the retiring member of the House of Commons for Macleod constituency, has notified Mayor Holmes of Claresholm that the formation of a Union Government having at last been accomplished, he will support the Government as a win-the-war candidate.

## JOHN HERRON FAVORS UNION GOVERNMENT

And Will Allow His Name To Go Before the Convention At Macleod on Saturday. — Resigns Previous Nomination.

An effort at a union convention of Liberals and Conservatives of the Macleod Federal riding is now being made, and meetings have been called for delegates of both Conservatives and Liberals to be held in Macleod on October 27th. Each party will have five delegates from each provincial riding in the Federal district. The parties will hold separate meetings in the morning to reach a decision as to whether it is advisable to put a union candidate in the field. In case this decision is reached, a union convention will be held in the afternoon in the town hall at three o'clock, to arrange for holding a convention to nominate a union candidate.

Elsewhere in this issue appears a news item setting forth the attitude of the retiring member for this constituency, Dr. D. Warnock, towards the new government. In order to get a statement if possible from the Conservative nominee, Mr. John Herron, of Pincher Creek, who was nominated about two years ago by the Conservatives of this riding, The Bulletin called that gentleman on the phone on Tuesday and enquired what his stand was going to be, both as regards union government and the representation from this constituency.

## John Herron's Attitude

Mr. Herron declared emphatically in favor of union government, and also pointed out to The Bulletin that it is his intention to resign his seat in the House of Commons, and to be re-elected as a Conservative. He stated that he was not at all intimidated by the attitude of the Conservatives, and that he was willing to have his previous nomination withdrawn as it was made at a time when conditions and circumstances were vastly different from what they are now. He still holds to this intention and will do all in his power to facilitate the selection of a candidate that will support the union government and its policy as announced when the conventions take place at Macleod on Saturday.

Asked if he would allow his name to go before the convention, Mr. Herron stated that he would consider it an honor to do so, but would commit himself no farther.

Encourage the candidates. Give them a subscription to The Bulletin.

Remember the Halloween dance in the opera house on Wednesday evening, October 31st.

## LABORITES OF FERNIE TO HAVE CANDIDATE

Are in Favor of National Labor Party and Will Call Another Meeting Later to Decide on Line of Definite Action

Delegates from Michel and other outlying districts met a delegation from Fernie at the latter town on Sunday afternoon to take preliminary steps looking to a permanent organization of all labor interests in the East Kootenay riding, for the purpose of nominating a candidate for the Dominion house to be voted for at the approaching election.

Those present seemed actuated by a common desire to have the labor elements in the riding united in the contest, and their action as a body showed a full sense of the situation and a desire to take advantage of the opportunity now presented to elect a straight labor candidate for the riding.

Thomas Biggs was elected temporary chairman and Wm. Potter acted in the capacity of temporary secretary. After a short discussion it was decided to call the new party the Independent Labor party in consonance with the title adopted by the party in England.

All the discussions were in a most friendly and uncontroversial spirit, evincing a desire to unite every element which goes to make up the labor interests in general as they affect this district at this momentous time.

A living incident is reported on good authority to have taken place on the train between Hariston and Mount Forest on Saturday last, when an Ontario change of train was somewhat loudly boasting of the prosperity of his calling in these war times with their big prices. "Just let this war continue while longer and we farmers will be on our feet!" At this point a little woman who had been listening away in her seat, and who had been marked, "the frank," she remarked, "I don't think I could stand that kind of talk any longer." There was a moment of silence.

## U. S. Destroyers' Work

Good Work of the U.S. Destroyers in the Forbidden Zone

For military reasons the facts cannot be detailed, but it may be said that the United States destroyers are very active in the protection of vessels in Germany's "forbidden zone," and that the strain on officers and men is heavy. They are exposed to danger from the enemy and from rough weather. "Four days on and four days off" for officers and men on the destroyers and patrols hunting U-boats on the other side means that the navy is doing its full share of hard work; for "four days on" spells for them no rest, little sleep, hard work and hardship. The crew come into port utterly exhausted, but after four days ashore go back, prepared for another turn with the submarines. When the number of ships and their crews and what they have accomplished, is taken into account the navy will be found to have not been less than its prestige called for. Army and Navy.

## Draw Revolving Picture

United States official representatives and newspaper correspondents who lived in Germany in war time are now free to say what they think. One and all draw a revolting picture of the country, particularly of the German officials and the rulers. They confirm the general belief that Germany is a horrible disease, which must be cured by the surgery of war. The rulers are blind-crazed and the people are blind.—Toronto Globe.

## A Medicine for Women

For Forty Years Lydia E. Pinkham's Vegetable Compound has Relieved the Sufferings of Women.

It hardly seems possible that there is a woman in this country who continues to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial after all the evidence that is continually being published, proving beyond contradiction that this grand old medicine has relieved more suffering among women than any other medicine in the world.

## Mrs. Kieso Cured After Seven Months' Illness.

Aurora, Ill.—"For seven long months I suffered from a female trouble, with severe pains in my back and sides until I became so weak I could hardly walk from chair to chair, and got so nervous I would jump at the slightest noise. I was entirely unable to do my house work. I was giving up hope of ever being well, when my sister asked me to try Lydia E. Pinkham's Vegetable Compound. I took six bottles and today I am a healthy woman able to do my own housework. I wish every suffering woman would try Lydia E. Pinkham's Vegetable Compound, and find out for herself how good it is."—Mrs. KARL A. KIESO, 590 North Ave., Aurora, Ill.

Cincinnati, Ohio.—"I want you to know the good Lydia E. Pinkham's Vegetable Compound has done for me. I was in such bad health from female troubles that I could hardly get off my bed. I had been doctoring for a long time and my mother said, 'I want you to try Lydia E. Pinkham's Vegetable Compound.' I did, and I am now a healthy woman. I am able to do my house work and am so happy as I never expected to go around the way I do again, and I want others to know what Lydia E. Pinkham's Vegetable Compound has done for me."—Mrs. JESSIE CORNAN, 1608 Harrison Ave., Fairmont, Cincinnati, Ohio.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Zam-Buk ends the pain, and stops bleeding. Try it! All druggists, etc. see.

## Zam-Buk

## Is Your Chimney Safe?

Defective Chimney a Common Cause of Fires

Defective chimneys are the greatest single source of fires. The investigation being conducted by the commission of conservation discloses the fact that, for the year 1916, of the places reporting, no less than 640 fires were due to faulty chimneys. This is exclusive of fires resulting from dangerous stovepipes or chimney sparks.

Before winter weather necessitates pressure upon heating apparatus, the householders should carefully inspect all chimneys, as well as stove and furnace pipes and have them put in good condition. Rarely, if ever, does the occupant of a house make an examination of the chimney where it passes through the attic. Yet, this portion of the building is probably the source of the greatest majority of fires which start from defective chimneys. Changes in weather conditions and vibration have a deteriorating effect upon the mortar in the brickwork, causing it to disintegrate and leaving openings through which sparks may readily pass.

## Catarrh Cannot be Cured

With LOCAL APPLICATIONS, as they cannot reach the seat of the disease, Catarrh is a local disease, greatly influenced by constitutional conditions, and in order to cure it must be treated internally and generally. Catarrh is taken internally and acts on the system. Hall's Catarrh Cure was present in the country for years. It is composed of some of the best blood purifiers. The Catarrh Cure is what produces such wonderful results in Catarrh cases. Send for testimonials, free. F. J. CHENEY & CO., Props., Toledo, O. Hall's Family Pills for constipation.

## Is a Lazy Man a Sick Man?

The Writer Thinks That Laziness Is a Disease

Laziness is one of the reasons why many men fail. It does not mean that industry always means success. Energy may be misdirected. There are plenty of hard-working men who are still scarcely able to keep the wolf from the door. It is true that some of these men would do much better if they did more work, but it is not laziness. Industry is not everything. And yet, given the other things, it is the industrious man who will win the big prizes of life. The lazier man will not be the least chance in the world.

Now there are two distinct general causes of laziness. Or we might say there are two kinds of laziness—mental and physical. In either case, the condition can be cured. In the average lazier we probably find both kinds.

In the one case it is due purely to mental inaction, the stagnating, inert, half-dead kind of attitude. In the other case, it is due to a lack of energy—that tired feeling. You cannot get much speed without plenty of steam. You cannot get up much steam without plenty of coal. Similarly in your own case, the "internal works" must be sound and working properly. Of the two I believe that the physical factor is in the average case the most important to consider.

That tired feeling—do you know what it means? It means that you are sick-out of order—abnormal.

No man who is right ever feels lazy. No one enjoying superior health can be lazy. Real health means energy, vitality, driving force. And it is expressed in activity—of body and mind. A healthy man simply cannot loaf. Do you get the significance of this?

Did you ever take notice of a healthy, vigorous child—how he is continually "at something," incessantly on the go, doing something, until the saucer man comes?

Woman the Barometer There is an encouraging sign in the growing discontent among German women. Overworked, underfed, and in a bad temper, they are ceasing to worship the autocracy that made the war. They rail at the Kaiser. They ridicule the crown prince. They jeer at the military caste. Soldiers home on furlough, they find the sentiments expressed by the German housewife. She is no longer interested solely in the Kaiser. She has opinions. Subtly contagious opinions they are, and subversive of faith in the divine right of Wilhelm.

Saskatchewan's Crop of Potatoes Saskatchewan will have over 5,000,000 bushels of potatoes this year, according to the estimate of the department of agriculture, which places the acreage under crop at 49,244 and the average crop at 10.4 bushels per acre.

## The Kaiser's Hopeless Task

Prefers the Horrors of War to the Terrors of Reckoning

People have wondered why the Kaiser has clung to his war, and still clings—to his hopeless task, with all its bloody sacrifice. May it not well be that he prefers even the terrors of the horrors of war to the terrors of reckoning what peace will bring? War at least is a distraction, and he may well shrink from the cold light peace will throw on a bankrupt Germany—bankrupt not only in the financial credit as well as his finance. No wonder there is evidence of growing peace-lunger among the people of Berlin—many of whom would be glad to hand over not only Belgium and Alsace-Lorraine and all the German colonies but the Kaiser and the Crown Prince along with them. And hence the growing anxiety in the government—Glasgow Herald.

## WIRE CUTS

on Horses, Cattle, &c., quickly cured by EGYPTIAN LINIMENT For Sale by All Dealers. Doughty & Co., Ltd., Montreal. (Free Sample on Request)

## The Future of Germany

Will Suffer from an Economic and Social Boycott

Whether victorious or defeated, Germany is likely to suffer for many years from a social and economic boycott, not necessarily inspired by any government, but the voluntary act of thousands of individuals with whom the feeling of resentment will be keen and lasting. It is probable that it will be many years before any Frenchman or Briton will, without need necessity, have business relations with Germany. Travel between the countries will be paralyzed for few Frenchmen or Britons will enter Germany and still fewer Germans will be welcomed in France or Great Britain.

We hardly realize the intensity of feeling which the sufferings and barbarities of this war have brought about. The general feeling is reasonable that the material prosperity of Germany will suffer immeasurably for years to come from this economic and social boycott which is likely to be further recognized that much of the resentment of the world will be directed against Germany.

We have heard the intensity of feeling which the sufferings and barbarities of this war have brought about. The general feeling is reasonable that the material prosperity of Germany will suffer immeasurably for years to come from this economic and social boycott which is likely to be further recognized that much of the resentment of the world will be directed against Germany.

It is probable that it will be many years before any Frenchman or Briton will, without need necessity, have business relations with Germany. Travel between the countries will be paralyzed for few Frenchmen or Britons will enter Germany and still fewer Germans will be welcomed in France or Great Britain.

## WOULD NOT BE WITHOUT BABY'S OWN TABLETS

Mrs. A. C. Smith, Goodwood, Ont., writes: "I have used Baby's Own Tablets for the past two years and have found them to be the best medicine a mother can give her little ones. I would not be without them. The tablets are supplied through the simple ailments of childhood. They regulate the bowels; sweeten the stomach; and make the cross, sickly baby bright, healthy and happy. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Will Be Huns Forever We can be sure that the Kaiser will carry his bluff to the last ditch. He will hold out while there is a shadow of hope that the allies will make peace. For him anything less than a victorious peace will be disaster of the most terrible kind. A German poet pictures the position of Germany in the event of defeat. "Let them call us Huns," he says, "if we can but gain the victory. But let us die first if we are to be called Huns and to be defeated as well."

The Invalid Soldiers' Welfare League is a newly formed organization in the Edmonton Convalescent Home which promises to become a model for similar leagues in the country. The league is composed of the military hospitals' commission.

There are many phases of life to be carried on in the homes, and the patients here hit upon the idea of forming an organization which would provide machinery for promoting athletics, social life and maintaining a canteen, as well as a bond of interest common to all the men in the home.

The membership is constantly changing, of course, as the men are discharged and new ones come in, but every man while he stays belongs to the league. The aim is simple—"For the welfare of the men in the convalescent home and hospital," and the appeal is direct. The required funds are raised by the men themselves. There are three chief committees; one is in charge of athletics and arranged games, field days, and all sorts of sports; the other committee has charge of all the picnics, concerts and movies; and the canteen committee of the smokers, refreshments, etc.

The supreme proof of its usefulness comes when it lends a hand to the amount of \$400, to any man going into civil life needing a lift, he can give proper security, and every dollar loaned to date has been repaid.

This is a boon to the man who lived on a salary before he enlisted and whose family used up his small savings in his absence. Each man who worked was paid \$2 a day; and ten per cent. of the profits were set aside for the widows and orphans fund of the Great War Veterans.

Minard's Liniment Cures Diphtheria.

Why the U.S. is at War We are fighting to save American husbands from being forced to dig graves for their wives. We are fighting to save American babies from your bayonets. We are fighting to save American women from the flames. Loyal and thinking Americans feel that if the shipwreck in the North Sea happens, and the weary guard from the Yser to Belgium is battered down, your country would point toward us and soon the trench line would be on the Hudson, the Delaware and the Chesapeake.—Detroit Tribune.

There is an encouraging sign in the growing discontent among German women. Overworked, underfed, and in a bad temper, they are ceasing to worship the autocracy that made the war. They rail at the Kaiser. They ridicule the crown prince. They jeer at the military caste. Soldiers home on furlough, they find the sentiments expressed by the German housewife. She is no longer interested solely in the Kaiser. She has opinions. Subtly contagious opinions they are, and subversive of faith in the divine right of Wilhelm.

ROYAL YEAST CAKES

Has been Canada's favorite yeast for over a quarter of a century. Baked bread with Royal Yeast will keep fresh and moist longer than that made with any other, so that a full week's supply of bread may be made at one baking, and the loaf will be just as good as the first.

WINNIPEG, TORONTO, ONT., MONTREAL

## Walks Between Buildings

Reduces the Amount of Dirt Carried Into the House

Walks between buildings adds a good deal to the ease and comfort with which the chores can be done on the farm and they also reduce the amount of dirt which is carried into the house. Cement concrete is one of the best materials for making walks. When it is properly made with the right amount of sand and gravel of good quality the construction is permanent.

In making the walks excavate eight to ten inches deep and fill in with four to six inches of cinders or similar material, well tamped to make a good base and on top of this place three and a half inches of concrete tamped in place and a top coat of one-half inch cement mortar mixed in the proportions one cement to two sand. The gravel for concrete should be well graded in such a way that it will be one inch, and for this material the proportions may be one cement to three sand, and the full four inches made of this material.—Agr. Ex. Dept., N.D. Agr. College.

A "rough" walk may be advisable, in which case a little extra gravel may be used in the concrete and the full four inches made of this material.—Agr. Ex. Dept., N.D. Agr. College.

Fresh Supplies in Demand—There is a demand for Electric Oil has been produced increased supplies have been ordered showing that wherever it goes this excellent oil impresses its power on the people. No matter in what latitude it may be found its potency is never impaired. The oil is sold in various sizes in bottles and can be carried without fear of breaking.

## Irrigation Period Extended

Railway Co-operating With Farmers in Aid of Increased Production

The steps being taken in Western Canada to increase food production in the face of the war have been the subject of a report made by the Lethbridge board of trade to the Canadian Pacific railway that the company should continue to flow irrigation water in the ditches beyond the usual time this fall to enable farmers to increase their land for the purpose of increasing the crops of 1918. Similar representations have been made by settlers in the eastern section of the Canadian Pacific railway irrigation block. In both cases the company has shown its desire to co-operate with the farmers in increasing production by agreeing to the request that water should be allotted through the ditches after September 30, which is officially the end of the irrigation season.

A cynic is a man who must be unhappy in order to appear happy.

Unless worms be expelled from the system, no child can be healthy. Mother Graves' Worm Extirpator is the best medicine extant to destroy worms.

## Invalid Soldiers

Form New League

Convalescent Soldiers at Edmonton Form Model Organization

For Mutual Welfare The Invalid Soldiers' Welfare League is a newly formed organization in the Edmonton Convalescent Home which promises to become a model for similar leagues in the country. The league is composed of the military hospitals' commission.

There are many phases of life to be carried on in the homes, and the patients here hit upon the idea of forming an organization which would provide machinery for promoting athletics, social life and maintaining a canteen, as well as a bond of interest common to all the men in the home.

The membership is constantly changing, of course, as the men are discharged and new ones come in, but every man while he stays belongs to the league. The aim is simple—"For the welfare of the men in the convalescent home and hospital," and the appeal is direct. The required funds are raised by the men themselves. There are three chief committees; one is in charge of athletics and arranged games, field days, and all sorts of sports; the other committee has charge of all the picnics, concerts and movies; and the canteen committee of the smokers, refreshments, etc.

The supreme proof of its usefulness comes when it lends a hand to the amount of \$400, to any man going into civil life needing a lift, he can give proper security, and every dollar loaned to date has been repaid.

This is a boon to the man who lived on a salary before he enlisted and whose family used up his small savings in his absence. Each man who worked was paid \$2 a day; and ten per cent. of the profits were set aside for the widows and orphans fund of the Great War Veterans.

## Uncle Sam's Soldiers

Origin of the Marks of Rank are Explained

The marks of rank on the clothing of American military officers are not the same as those used in the British army. An officer with General Pershing's force has explained their origin. The oak leaf, he says, is worn by a captain, and the poplar leaf by a major, because the poplar grows after the oak. The eagle signifies a colonel, because the eagle soars over the poplar. The stars are for generals, because the eagle looks towards the stars which shine over all.

An officer's coat sleeve has brown braid round it, while the enlisted man has merely two rows of stitching. The overcoat of an officer is cuffless, has various braiding to denote rank, while the enlisted man's overcoat has a cuff. The officer also has two bone buttons on the back of his overcoat; the enlisted man has two bronze buttons bearing the United States arms.—London Tit-Bits.

## Britain Increases Army and Navy Pay

Advance in Pay Involves Sum of \$50,000,000 Pounds for First Year

The British cabinet has increased the army and navy pay, and the increases are small compared with the American and Colonial standards. The present army rule is that from three to six pence a day will be payable after six months' service, instead of two years, as under the present army rule. There is also an increase of a penny a day for each year of war service. The present compulsory allotment of six pence daily for privates and ten pence for sergeants is abolished.

The navy increase is about the same rate of pay, and the allowances to the army and navy now amount to 225,000,000 pounds yearly. The increases involve \$50,000,000 pounds for the first year.

One dose of Miller's Worm Powder will clear the stomach and bowels of worms, so that the child will no more be troubled by their ravages. The powders are sweet to the taste and no child will object to taking them. They are non-injurious in the most delicate cases, and in some cases they may cause vomiting, that must not be taken as a sign that they are nauseating, but as an indication of their effective work.

## Automobiles in Canada

Motors continue to be a most vigorous activity in Canada, according to figures given in the Toronto Star, an estimate of \$50,000,000 being held as the worth of cars manufactured in this country this year. Those purchased in the same period are placed at 100,000, or five times the number registered in 1914, or one to about 57 of the population.

Canada occupies third place among the nations of the world in the use of automobiles. The United States comes first, with 3,000,000 for 110,000,000 people and Britain second, with 760,000 for 45,000,000 people. For a young country like ours, with its sparse population; but it must not be overlooked that no inconsiderable number are utilized for agricultural and industrial purposes, causing much economic saving in time and money. Many users are not joy-riders.—Hamilton Spectator.

## An Eye Witness

## Editorial Comment

THERE SHOULD BE general satisfaction over the announcement that a Union Government is now assured. After lengthy and apparently difficult negotiations, persisted in with commendable patience and doubtless considerable sacrifice of party plans, Sir

**UNION GOVERNMENT**  
Robert Borden has at last succeeded in forming a Cabinet which will include a number of leading Liberals. Few who are not in active politics can understand just what it means to these men—of both parties—to lay aside party affiliations and meet in closest political union the very men who have been their lifelong political antagonists; but it is satisfying to know that they have been big enough to see the need, and unselfish enough and patriotic enough to forget party claims for a time, and unite to form what The Bulletin believes will prove to be a truly Canadian Government. We trust the new Government will be able to carry the country, and that the elections will show that Canada is in the war "to the last man and the last dollar."

Undoubtedly the creation of a Union Government in Canada today will greatly please a vast majority of the people, who have felt their allegiance to party weakening and dwindling away by reason of the stress and strain of the past few years. Many were getting impatient at what seemed like the continued triumph of narrow partisanship, and were getting into a mood bordering upon desperation. But now that this move at last has been made, everyone should be ready to forget the past in an eager hopefulness for the future.

And we can all rejoice at the prospect that, under a Union Government, Canada's part in the great world struggle will not show the terrible anti-climax that at one time seemed all too likely. That Canada has done well can surely be claimed without boasting. And now we are assured that Canada will continue to do well right through to the end of the struggle.

Canada's Union Government is one of the most notable achievements of her history.

A FEW DAYS AGO press despatches informed us that Dr. David Warnock, the retiring member of the House of Commons for

### DR. WARNOCK'S CANDIDATURE

the Macleod constituency, had notified the president of the central Liberal association of his constituency that he was willing to contest the riding in the forthcoming election as a win-the-war candidate. The Bulletin of course does not presume to advise the convention being held in Macleod on Saturday as to whom it should or should not select as standard-bearer. Nevertheless, we make bold to state that from the point of view of the man on the street, in considering Dr. Warnock's offer of candidature, there are a few considerations other than his attitude towards Union Government that cannot be ignored.

Immediately after the commencement of the war Dr. Warnock, with commendable promptness, offered his services in whatever capacity would be most useful. He was given a position as one of the chief veterinary inspectors under the Imperial Government, which post he still holds. But as one cannot be in two places at the same time, and as Dr. Warnock evidently and rightly judged his war work to be the more important, he quite properly has given all his attention to that work and the Macleod constituency has as a result been practically unrepresented at Ottawa for two years.

Should Dr. Warnock contest this riding as a supporter of the Union Government, and succeed in winning the election, this district would for the duration of the war at least be in just the same predicament as regards its representation at Ottawa as it has been in during the past two years.

This condition of affairs is felt by many to be both unsatisfactory and unnecessary, and in this portion of the riding at any rate this feeling is shared by many of Dr. Warnock's warmest supporters in the last election. These are history-making times and tremendous questions have been before the House during the past two years—and equally momentous problems will have to be dealt with at future sessions of Parliament—and after he has given the subject more thoughtful study we feel sure that Dr. Warnock will agree that the electors of Macleod riding are not asking too much if they suggest that some other man, one who has time to attend the sessions and discharge the necessary duties of his office, be sent to Ottawa as their representative.

It is not at all a question of Dr. Warnock's popularity or ability—it is purely and simply a matter of his being unable to be in two places at one and the same.

### CURRENT COMMENT

Unluckily all the Flavell Commission is authorized to do is to look into his bacon graft. All his other grafts escape inspection. A Royal Commission that would thoroughly investigate Sir Joseph Flavell would need to investigate every spot where a dollar shows its head in Canada, not to mention choice spots in the United States and England.

A prominent Montreal clergyman recently took as the basis of his Sunday evening sermon the query: "Is the Young Man Safe?" He probably is—as long as he stays in Montreal. The Germans will not likely get him there.

A while back R. B. Bennett declared that he was disgusted with politics, and we wondered what was bothering him. Recent events at Ottawa, however, give a very definite clue. Richard Bedford evidently didn't like the look of Borden's proposed cabinet, especially when viewed from the outside.

Being a good churchman, we presume Joseph Flavell reads his Bible pretty thoroughly. It must just about break the old edger's heart to read in the New Testament about the large herd of swine that became possessed of devils and "ran violently down a steep place into the sea and perished in the waters." Just think of all that bacon going to waste!

Calgary Herald: "A few days ago a young man who came before the medical examiners in Calgary was found to have all his internal organs on the wrong side, including his heart." The question is, when and where did he get the horrible twist that resulted in this freak of nature? No need to worry long as it was not caused by dodging recruiting officers.

The investigation into Flavell's bacon graft is bringing to light some of his sharp methods used to increase the weight of the bacon he shipped to England. But worse things happen to his eggs even when they stay at home. Rumor has it that millions of eggs are having their characters ruined by him. The story is that the eggs get pickled in his warehouses. This is a matter for the Moral Reform League.

Leithbridge Herald: "The Edmonton Bulletin is firing Biblical quotations at the profiteers, probably because the alleged profiteer is supposed to be very familiar with the Bible and might benefit from its admonitions. We'll be interested in the Bulletin's discovery of the Bible's opinion of union government." Well, we all know what happened to the gang that united for the purpose of building the tower of Babel, in case our Edmonton contemporary is stuck for an example.

## Exemption Tribunals.

Exemption Boards have been chosen in such a way as to make them absolutely independent and removed from all influence. There are over 1,250 boards throughout the country, each composed of two men, one appointed by the county judge in the district concerned and one selected by a joint committee of Parliament. Being familiar with local conditions where they sit, the members are well-fitted to appreciate such reasons for exemption as are put before them by men called up.

Exemption will be granted to those who can establish that it is in the national interest that they remain in civilian life. This is for the Exemption Board to decide after having received full information in each case.

The grounds on which exemption may be claimed (which are similar to the grounds recognized in Great Britain and the United States) are as follows:—

- (a) That it is expedient in the national interest that the man should, instead of being employed in Military Service, be engaged in other work in which he is habitually engaged.
- (b) That it is expedient in the national interest that the man should, instead of being employed in Military Service, be engaged in other work in which he is habitually engaged.
- (c) That it is expedient in the national interest that the man should, instead of being employed in Military Service, be engaged in other work in which he is habitually engaged.
- (d) That it is expedient in the national interest that the man should, instead of being employed in Military Service, be engaged in other work in which he is habitually engaged.
- (e) That it is expedient in the national interest that the man should, instead of being employed in Military Service, be engaged in other work in which he is habitually engaged.
- (f) That it is expedient in the national interest that the man should, instead of being employed in Military Service, be engaged in other work in which he is habitually engaged.
- (g) That it is expedient in the national interest that the man should, instead of being employed in Military Service, be engaged in other work in which he is habitually engaged.
- (h) That it is expedient in the national interest that the man should, instead of being employed in Military Service, be engaged in other work in which he is habitually engaged.
- (i) That it is expedient in the national interest that the man should, instead of being employed in Military Service, be engaged in other work in which he is habitually engaged.
- (j) That it is expedient in the national interest that the man should, instead of being employed in Military Service, be engaged in other work in which he is habitually engaged.
- (k) That it is expedient in the national interest that the man should, instead of being employed in Military Service, be engaged in other work in which he is habitually engaged.
- (l) That it is expedient in the national interest that the man should, instead of being employed in Military Service, be engaged in other work in which he is habitually engaged.
- (m) That it is expedient in the national interest that the man should, instead of being employed in Military Service, be engaged in other work in which he is habitually engaged.
- (n) That it is expedient in the national interest that the man should, instead of being employed in Military Service, be engaged in other work in which he is habitually engaged.
- (o) That it is expedient in the national interest that the man should, instead of being employed in Military Service, be engaged in other work in which he is habitually engaged.
- (p) That it is expedient in the national interest that the man should, instead of being employed in Military Service, be engaged in other work in which he is habitually engaged.
- (q) That it is expedient in the national interest that the man should, instead of being employed in Military Service, be engaged in other work in which he is habitually engaged.
- (r) That it is expedient in the national interest that the man should, instead of being employed in Military Service, be engaged in other work in which he is habitually engaged.
- (s) That it is expedient in the national interest that the man should, instead of being employed in Military Service, be engaged in other work in which he is habitually engaged.
- (t) That it is expedient in the national interest that the man should, instead of being employed in Military Service, be engaged in other work in which he is habitually engaged.
- (u) That it is expedient in the national interest that the man should, instead of being employed in Military Service, be engaged in other work in which he is habitually engaged.
- (v) That it is expedient in the national interest that the man should, instead of being employed in Military Service, be engaged in other work in which he is habitually engaged.
- (w) That it is expedient in the national interest that the man should, instead of being employed in Military Service, be engaged in other work in which he is habitually engaged.
- (x) That it is expedient in the national interest that the man should, instead of being employed in Military Service, be engaged in other work in which he is habitually engaged.
- (y) That it is expedient in the national interest that the man should, instead of being employed in Military Service, be engaged in other work in which he is habitually engaged.
- (z) That it is expedient in the national interest that the man should, instead of being employed in Military Service, be engaged in other work in which he is habitually engaged.

No Claim for Exemption should be put forward unless one or other of these grounds in fact exist, and no local citizen should assist in, or allow himself to be made a party to, any Claim for Exemption unless thoroughly satisfied that it is made in good faith.

Exemption may be applied for by the man selected themselves or by their parents, near relatives or employers. Application for exemption must be made in writing on a form supplied by the War Time Election Act, and be filled in and left with the postmaster if exemption is desired. The postmaster will forward the form to a Registrar, who will send it to the appropriate Exemption Board. In due time, then, the Applicant will get notice as to when he must present his case before the Board.

Issued by The Military Service Council.

## McGillivray Creek Coal and Coke Company, Limited

**PUBLIC NOTICE** is hereby given that under the First Part of Chapter 70 of the Revised Statutes of Canada, 1906, known as "The Companies Act," letters patent have been issued under the Seal of the Secretary of State of Canada, bearing date the 7th day of September, 1917, incorporating James Brown Sutherland, and William Gordon Belmont, barristers-at-law, of the City of Calgary, in the Province of Alberta; Lorne Argyle Campbell, electrical engineer, of the City of Rossland, in the Province of British Columbia; and James Albert Nowell, timber operator, of the City of St. Paul, in the State of Minnesota, one of the United States of America, for the following purposes, viz:—

(a) To purchase, take on lease, or otherwise acquire and hold, develop, sell or otherwise dispose of, lease or exchange any coal, iron and other mines, mining ground, minerals, petroleum lands, lands on which are situated oil and gas wells, clay deposits and quarries, and any mining rights, quarrying rights, with or without surface rights, irrigation rights, grants, concessions and easements, and any lands and hereditaments or other property (real or personal) necessary or convenient for the advancement, possession and use of the said mines, timber limits, quarries, clay mines, gas, oil, petroleum or other works for the time being owned or worked by the company or any interest therein respectively;

(b) To prospect for or drill for, manufacture, make merchantable, purchase or sell, and to contract, erect, coal, coke, patent fuel, iron ore, steel, bronze or other products of which iron is a component part, including products manufactured from iron and steel, minerals, metals, oil, brick, earth, brick dust, tiles, pipe, pottery, earthenware, china, glass, terra cotta and ceramic ware of all kinds, gas, coke, tar and all residual products resulting from the manufacture of gas, cement, lime, limestone and other stone, gravel and any other material, articles or things relating to or in any way connected with any of the above businesses, either on commission or otherwise;

(c) To acquire by grant, purchase, lease or otherwise, and to hold, work, sell, lease or exchange or otherwise dispose of timber limits or lands containing timber, and to construct, erect, acquire by purchase, lease, exchange or otherwise and to operate and control dams, saw-mills, planing mills and plant of every description necessary or convenient for the manufacture of lumber and articles in the making of which timber or wood is required or can be utilized, and to manufacture, buy, sell, either by wholesale or retail, export, import and otherwise deal in timber, lumber and wood of all kinds and articles in the making of which timber or wood is required or can be utilized;

(d) To acquire by purchase, gift, exchange or otherwise, and to survey, erect, build, construct, sink, carry out, repair, maintain, improve, operate, manage, work, control and superintend, roads, ways, levels, shafts, slopes, tunnels, railway sidings on lands owned or controlled by the company, telegraph and telephone lines on the land of the company and for the use of the company's employees only, bridges, culverts, drains, canals, watercourses, aqueducts, furnaces, coke ovens, plant, brickyards, limekilns, cement works, clay works, ceramic works, glass works, earthenware, smelters, dwelling houses, office buildings, or other works and conveniences which may seem directly or indirectly conducive to the objects of

the company, and to contribute to or otherwise take part in any such operations;

(e) To employ and pay mining and other experts, agents or other persons, partnerships, companies or corporations, and to organize, equip and dispatch expeditions for prospecting, exploring, reporting on, surveying, working and developing mining properties of all descriptions, whether the same are the property of the company or otherwise, and for all other purposes of the company;

(f) To acquire by purchase or record, or otherwise, water and water-power, and recorded or unrecorded water or water privileges, and to apply such water and water-power for the purposes for which the same can be used, and in particular, but without limitation, for the purpose of generating or producing electricity and power, and for the purpose of manufacturing, industrial and mechanical purposes;

(g) For the purpose of rendering water and water-power available for use, application and distribution, by erecting dams, increasing the head of water in any existing body of water, or by erect any line of flume, pipe or lay, or to construct any raceway, reservoir, aqueduct, weir, wheel, building or other works, and to construct, erect, build, construct, sink, carry out, repair, maintain, improve, operate, manage, work, control and superintend, roads, ways, levels, shafts, slopes, tunnels, railway sidings on lands owned or controlled by the company, telegraph and telephone lines on the land of the company and for the use of the company's employees only, bridges, culverts, drains, canals, watercourses, aqueducts, furnaces, coke ovens, plant, brickyards, limekilns, cement works, clay works, ceramic works, glass works, earthenware, smelters, dwelling houses, office buildings, or other works and conveniences which may seem directly or indirectly conducive to the objects of

the company, and to contribute to or otherwise take part in any such operations;

(h) To construct, acquire, charter, operate, hire, lease, sell or otherwise dispose of all kinds of steam, sailing, vessels, barges, boats and vessels, wharves, docks, warehouses, freight sheds and other buildings, and generally to carry on the business of a navigation company;

(i) To manage, develop, advance on, sell or otherwise deal with or dispose of any interests, options or rights in and over concessions, grants, lands, leases and any real or personal estate or property of every description, and to work and develop the resources of and turn the same to account in such manner as the company may think fit, and in particular by reclaiming, clearing, draining, ditching, irrigating, fencing, planting, building, letting on lease, farming, grazing and reforesting and by establishment of experimental plots and farms, otherwise on any terms or system that may be considered advisable;

(j) To create and to construct either by the company or through other parties, houses, buildings or works of every description on any land of the company or upon any other lands or hereditaments, and to pull down, rebuild, enlarge, alter and improve existing houses, buildings or works thereon, and to convert and appropriate any such land into and for roads, streets, squares, gardens and pleasure grounds and to carry out any works, plans, water mills, water mills, steam mills, gas works, telephone or other electrical works, water works, factories, roads,

canals, drains and undertakings of any kind upon or in connection with the lands, estates or properties of the company, or in which it has, has had or intends to acquire an interest, and to expend the capital of the company on any of the above objects or to contribute to or otherwise take part in any such operations, and to provide aid in the same;

(k) To assist, aid, encourage and promote immigration and the settlement and colonization of the said lands and for the purposes aforesaid to lend or grant such sums of money as may seem necessary in the premises;

(l) To carry on the business of general trading and the purchase of supplies, liquors and tobacco and other commodities to any employees of the company or to the occupants of any of its lands, or to any other persons, and for this purpose to stock and carry on any shops or stores, to establish depots or depots, and to build and rent dwelling houses, to build, establish or support churches, schools, reading rooms, libraries, places of recreation, building societies and other institutions, water, lighting, drainage and improvement works, and to do all and every matter or thing for the purpose of establishing a settlement or town; to enter into arrangements with, grant charters or concessions to any government, municipality, corporation, partnership, person or persons to establish depots or depots, and to do all and every matter or thing for the purpose of establishing a settlement or town;

(m) To apply for, purchase or otherwise acquire and to hold, sell or otherwise dispose of or otherwise turn to account, letters patent, brevets d'invention, concessions, licenses, inventions, rights and privileges of all kinds, and to do all and every matter or thing for the purpose of establishing a settlement or town; to enter into arrangements with, grant charters or concessions to any government, municipality, corporation, partnership, person or persons to establish depots or depots, and to do all and every matter or thing for the purpose of establishing a settlement or town;

(n) To purchase or otherwise acquire all or any part of the business, property, and liabilities of any company, partnership or person or other body of persons, or to do all and every matter or thing for the purpose of establishing a settlement or town; to enter into arrangements with, grant charters or concessions to any government, municipality, corporation, partnership, person or persons to establish depots or depots, and to do all and every matter or thing for the purpose of establishing a settlement or town;

(o) To promote or form, or assist in the promotion or formation of any companies, businesses or undertakings for the purpose of acquiring, purchasing, holding, working, or otherwise dealing with any property or products of the company, or in which this company is interested, or for any other purpose, with power generally to assist such companies, businesses and undertakings, and in particular by paying or contributing towards the preliminary expenses thereof or providing the whole or part of the capital thereof, or by taking or disposing of shares thereof, or by lending money thereto, upon any terms or otherwise, and further to pay out of the funds of the company all expenses attending or incurred in connection with this or any other company connected with this or any other company;

(p) To draw, make, accept, endorse, execute and issue promissory notes, bills of exchange, bills of lading, warrants and other negotiable or transferable instruments;

(q) To enter into any agreement with any government, provincial or federal, or any authority, municipal, local or otherwise, which may seem conducive to the company's objects or any of them, and to obtain from any such government or authority, any rights, privileges and concessions, and to acquire from any concessionaire any subsidies, charters, rights, privileges or concessions which the company may think it desirable to obtain, and to carry out, exercise and comply with, or if desirable, to dispose of any such subsidies, charters, rights, privileges and concessions;

(r) To obtain any Act of Parliament or any order, resolution or decision of the company to carry any of its objects into effect, or for effecting any modification of the company's

## Old Tea Looks All Right

Old tea and fresh tea, poor tea and good tea, all look alike. No wonder a woman often gets a bulk tea she doesn't like.

Red Rose Tea in the sealed package is always fresh, always good, always worth the price on the label.

Kept Good by the Sealed Package

## LOCAL AND GENERAL

Mary MacLaren, the distressed heroine of "Shoes," the spunky actress of "Savvy the Family Name," and the purposeless waif of "Wanted—A Home," all Bluebirds of splendid repute, is returning to the screen under the further direction of Lois Webber and will be seen at the Rex theatre on Wednesday and Thursday in "The Mysterious Mrs. M," a five act photoplay in which Harrison Ford will be her leading man. There is every assurance of good entertainment in this attraction for the combination of Lois Webber's artistry and Bluebird's faultless production means everything in photoplaying.

Speaking of the practical religion among men at the front, Capt. W. J. Magwood, formerly pastor of a Toronto Methodist church, cited the following incident: "I remember particularly a Canadian dispatch rider who was given a message to take to headquarters, the whole day's operations depending upon its prompt delivery. Lifting his head the soldier said: 'O God, I don't give a damn what becomes of me personally, but carry me through this for England's sake.' Some people may call that blasphemy, but I know that it was a real prayer," said Capt. Magwood.

## AN AMERICAN'S GENEROSITY

It is sometimes said that there is no sentiment in business, but it is true that, in these days particularly, sentiment plays a very large part in business. And, when sentiment tends to draw allied nations still closer together it is, perhaps, the very best kind of business.

An experience with this kind of sentiment came to the notice of the land department of the Canadian Pacific Railway at Calgary a short time ago. Mr. W. G. Fraser, of the aerial training station at San Francisco, had a balance of fifty dollars coming to him on a land transaction with the company. As Mr. Fraser is now lined up with Uncle Sam's fighting forces he desired that the money should go to some patriotic purpose, and wrote the C.P.R. asking them to turn it over to the Canadian Red Cross. He might, of course, have had it paid direct to him, or to some American patriotic society, but he elected that it should go to the Canadian Red Cross, which a few days ago received a cheque for that amount.

## SYNOPSIS OF CANADIAN NORTH-WEST LAND REGULATION.

The sole head of a family, or any male over 18 years old, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made at any Dominion Lands Agency (but not Sub-Agency), on certain conditions.

Duties—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required except where residence is performed by the vicinity.

In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Prices \$2.00 per acre.

Duties—Six months residence in each of three years after earning homestead patent; also 80 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent on certain conditions.

A settler who has exhausted his homestead right may take a purchased homestead in certain districts. Price, \$20 per acre. Duties—Must reside six months in each of three years, cultivate 80 acres and erect a house worth \$200.

The area of cultivation is subject to reduction in case of rough, scrubby or stony land. Live stock may be substituted for cultivation under certain conditions.

W. W. CORY, C.M.G., Deputy of the Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.—64388.

Recent meetings of church courts have been denouncing the pitfalls of Satan, deploring the decrease in attendance at Church services and suggesting investigation into the causes of it all. It is a fact to be greatly deplored that the church does not hold in the hearts of the people the place it once did. The fault is where? Some of the preachers say the people; but other preachers are not so outspoken; they are not sure that the fault is not with the preachers themselves. What ever is the reason and wherever the fault lies, preacher and layman have a big field to explore and if they discover anything from which practicable suggestions may be deduced, they who have the fondness for church life as it existed twenty-five ago will be glad to hear them.

## Sunday Next at St. Alban's

Next Sunday, October 28th, will be observed as Children's Day. Holy Communion will be celebrated at 8 a. m. Sunday School at 3 p. m. Evening song will be at 7 p. m. when an address will be given on "Childhood" entitled "The Child of God." The anthem, "What Are These that Are Arrayed in White Robes?" will be rendered by the choir and also hymns suitable to the occasion. There will be a special collection which will go towards reducing a debt of about \$30 remaining on the Diocesan assessment. A portion of this fund being devoted towards maintaining the work of church Sunday Schools throughout the Dominion it is hoped that all parents will do their best to be present. A hearty invitation to all.

# Why Canada Needs More Money

UP to date the war has cost Canada about \$700,000,000.

Canada has spent in Canada over \$400,000,000 on her own account.

Canada has spent in Canada on behalf of Great Britain over \$300,000,000.

What Canada spends for Great Britain is really loaned to Great Britain and will be repaid or credited to Canada later on.

Great Britain needs so much ready cash to finance her own expenditures at home for herself and for our Allies that she must buy on credit from Canada, and from every other country where she can get credit.

Of course Great Britain's credit is so good that other countries, in order to get her trade, are quite as willing to give her credit as we are in Canada.

Canada wants to help Great Britain not only because Canada wants Britain's trade but because we are Canada and she is Great Britain—both members of the same great Empire, kin of our kin, our motherland.

For Canada it is both a filial and patriotic duty to supply Great Britain's war needs and remember, her needs are our needs. Also it is in Canada's self-interest to supply those needs and thus keep open a market for our products.

★ ★ ★

Now, Britain needs our wheat, our cheese, cattle, hogs, and many manufactured articles.

Canada also needs many of these things—between the two it amounts to more than a million dollars a day in cash.

And the producers must be paid in cash.

Neither Canada nor Great Britain could go to a Canadian farmer and buy his wheat or his cattle on credit.

The farmer and all other producers might be ever so willing to give their country credit but they could not do it because they have to pay cash for wages,

for rent, materials, etc. They must be paid in cash, or its equivalent.

So Canada says to Great Britain:—"I will lend you the money so that you can pay cash to Canada's producers for what you want."

"I will borrow this money from our own people just as you borrow money from your people."

"I will also borrow from the people of Canada money to pay cash for all the products that Canada, as well as Great Britain, needs in Canada."

That is Canada's practical, patriotic part in helping to win the war.

Without this credit the Canadian producer could not sell to Great Britain, and without these Canadian products the war would be prolonged.

So it is necessary for Canada to give to Great Britain the credit in order that Canada's own producers, who need a market, will have one; and in order that Great Britain which needs the products to win the war, will get them.

★ ★ ★

Now how does Canada get the money by which both Canada and Britain can pay cash for Canada's products?

By borrowing it from the people of Canada through the sale of Canada's Victory Bonds to be offered in November.

That is why Canada's Victory Bonds are offered to the people—to raise money to help to finish the war.

"Canada must keep her shoulder to the wheel even though it be a chariot of fire," and the way for Canada to keep her shoulder to the wheel is by buying

## Canada's Victory Bonds

Next week this space will tell why Canada raises money by selling Canada's Victory Bonds

Issued by Canada's Victory Loan Committee in co-operation with the Minister of Finance of the Dominion of Canada.

has been lighted and blown  
out.

Look for the words "Chemically  
self-extinguishing" on the box.

## Getting Rid of Weeds

Sow Thistles Killed by the Summer-  
Fallow Method

In every portion of Manitoba  
where the perennial Sow Thistle  
is well distributed, it has, this year,  
been conclusively demonstrated that  
this weed can be almost, if not en-  
tirely eradicated in one season by  
the summer-fallow method. In al-  
most every infested district the weed  
commissioners find good, and in  
some places extra good, crops of  
wheat growing on fields that were  
contaminated for thistles and treated  
to black fallow last year. In a few  
cases almost the best crops in the  
district are upon fields that because  
of weeds, were plowed up as being  
of no value and summer fallowed in  
1916.

On the other hand, it is being not-  
ed universally that where the thistles  
are so starved out that in many  
cases, even if they were harvested,  
they would scarcely pay for the  
work of threshing. The owners of a  
great amount of land are being giv-  
ing notice this season that thistle-in-  
fested fields must be given cleaning  
treatment next year. Several pro-  
cesses also have occurred this year  
because of neglect of weeds upon  
vacant lands, hopelessly dirty grain  
fields and neglected summer fallows.

## Long Life Now

## A Moral Question

Physical Improvement Is Altogether  
in the Hands of the Individual

The physical improvement of the  
people is a question very much to  
the fore in these days. Health con-  
ventions, all over the land, are being  
held, and the foremost theme of these  
are discussing the problem of disease  
prevention with scientific thorough-  
ness. The statement is freely made  
that a large percentage of the ordi-  
nary death rate in modern communi-  
ties is avoidable. A reasonable care  
about sensible living would increase  
the average human life, authorities  
state, by not less than fifteen years  
within a generation.

Dr. Hansen Emerson, health com-  
missioner of New York, stated to a  
clergyman of his acquaintance:  
"In the conservation of human life  
men of science have gone about as  
far as we can get. We have made  
the facts known, we have shown  
people what shortens their lives and  
what will lengthen them. The mas-  
sacre generally know the truth  
nowadays about the diseases that cut  
men off before they have lived out  
a normal term of life—know how  
those diseases are contracted and  
know how they can be avoided. What  
is left is a moral question—not a  
scientific question at all. It is the  
question whether men will do as  
well as they know. Today they see  
clearly the results ahead if they fol-  
low disastrous habits, and yet they  
keep on with those habits just the  
same. What they need is not more  
knowledge or more warnings. What  
they need is character, backbone,  
will-power—the qualities that carry  
knowledge into practice. The ten-  
sion of men's term of natural life  
with the church today much more  
than it does with the medical  
profession. It is up to the church to  
take hold and put into men some-  
thing that will make them willing  
and able to live as they know they  
ought to live."—J. H. Hazlewood,  
Department of Social Service.

With the Fingers!  
Says Corns Lift Out  
Without Any Pain

Sore corns, hard corns, soft corns  
or any kind of a corn can shortly be  
lifted right out with the fingers if  
you will apply to them a few  
drops of freezone, says a Cincinnati  
authority.

At little cost one can get a small  
bottle of freezone at any drug store,  
which will positively rid one's feet of  
every corn or callus without pain or  
inconvenience. It is a simple matter  
to use. This new drug is an ether com-  
pound and dries the moment it is ap-  
plied and does not inflame or even  
irritate the surrounding tissue. Just  
think! You can lift off your corns  
and calluses now without a bit of  
pain or soreness. If you rub freezone  
hasn't freezone he can easily get a  
small bottle for you from his whole-  
sale drug house.

## The Standardized Ship

Enforcing of Civilized Standards for  
Housing of Seamen

It is not only the speed with which  
it is being turned out from the yards  
that marks the standardized ship, but  
the increased speed with which it can  
be worked. The feature of the gen-  
eral arrangements is the very large  
hatchways which enormously facili-  
tate the loading and unloading of  
cargo. Supplemented by improved  
port facilities, such as Lloyd George  
emphasized in his recent analysis of  
the shipping problem, it is plain that  
every ton of shipping will account  
for a proportion of cargo unattain-  
able before the war. Nor has the  
human factor been neglected. The  
principle that the well-being of the  
worker operates for increased out-  
put has been adopted. The construc-  
tion of seamen's quarters on the new  
ships. The old tradition that the  
deep sea sailor may live anyhow  
and anywhere has been discarded.  
The need of two-men cabins for the  
accommodations of the crew, mess-  
ing arrangements separated from  
sleeping quarters, a smoking room  
for the men—and steam heat! One  
of the permanent results of the war  
will be the enforcement of civilized  
standards for the housing of the  
workers, whether on sea or land, on  
the cargo carriers or around the fac-  
tory chimneys and the mine pits.  
From the New York Evening Post.

She-Mr. Hoover says that it's  
much healthier to eat fruit with the  
skins on instead of peeling it.  
—Humph! I'd like to put him on  
a diet of pineapples for about a  
week and then hear what he'd have  
to say.—Cartoons Magazine.

## Germany's Stupid Diplomats

## Her Government Today Is Distrust-

## ed and Hated Everywhere

## What will provide Germans think of

## their foreign office meekly lying

## down before an ultimatum from Ar-

## gentina? With what composure will

## they read the alienation of Sweden

## by official receipt? How will they feel

## about their Zimmermann and their

## Lusitania and their Hermitcraft, when

## the full evidence of their incredible

## foolies is laid before the German pub-

## lic? With the shame there will surely

## be resentment—resentment that Ger-

## many has been put in such a bad

## light by the acts of her rulers, so

## that her government today is dis-

## trusted or hated everywhere, and no

## one can be found to place faith in

## its pledges, or to be anything but

## nauseated when it talks about mor-

## ality and good faith among nations.

## President Wilson does not need to

## go outside of Germany to find pow-

## erful support for his contention that

## the German government has made

## itself guilty of such gigantic stupid-

## ities as a condemnation from which

## there can be no appeal. The Ger-

## man lawlessness might have been pardoned

## if it had been successful; but

## the German people, in sheer self-de-

## struction, will not permit it to be

## violent hands.—From the New York

## Evening Post.

## Soft corns are difficult to eradicate,

## but Holloway's Corn Cure will draw

## them out painlessly.

## Going Back on the Kaiser

## German People Gradually Losing

## Faith in the War Lord

## In the September number of the

## Nineteenth Century, a very inter-

## esting article by Prof. F. Sefton

## Delmer, He, Australian born, had

## lived for twenty years in Ger-

## many, during the latter part of the

## time being a professor in the Uni-

## versity of Berlin. From the out-

## break of the war until May of this

## year, he was a civil prisoner in Ber-

## lin. He was able, however, to go

## about under restrictions and to do

## something of his university duties.

## What he writes of their change of

## opinion is interesting. He declares:

## "Before the war the intellectual

## classes of Germany were almost to a

## man on the side of the Kaiser. But

## many of these people, who in Aug-

## ust, 1914, lauded their ruler to the

## skies as a new Charlemagne, now

## shrink their shoulders at him and his

## house. They put the disaster which

## has come over them in consequence

## of this war, and the still worse dis-

## asters with which they see them-

## selves threatened in the near future,

## they lay to the Kaiser's door. They

## have turned into the belief that he

## is a second Frederick the Great, his

## policy and his conduct as a states-

## man of German policy, have all come

## home to them. "He dismissed Bis-

## marck," I have heard people say,

## "but just look at the statement he

## has chosen as his chancellor, since—first

## Caprivi, a mere soldier; then Hohen-

## hausen, the courtier; and now the

## scholar fox von Bulow, and after him

## the pliable and weak-kneed philoso-

## pher Bethmann, but never really strong

## man or a great statesman among

## them all!"

## Minard's Liniment Cures Diarrhoea

## A Race of Cripples

## Only One American Out of Every

## Five Is Considered Sound

## The military medical authorities

## have examined our citizens by the

## thousands. The results of this ex-

## amination in many instances have

## been as follows:

## Out of every five examined, one is

## considered sound. The other four

## are cripples. Some part of their in-

## ternal organs is affected. The

## heart, stomach, lungs, kidneys or

## some other vital organ or function is

## crippled.

## For generations the blind have

## been leading the blind. The blind

## man and woman should remember that

## the ill of debility, nerve exhaustion,

## digestion, sleeplessness, neuritis,

## and depression come from a faulty

## blood supply. Worry, over-work or

## other causes have impoverished the

## blood and left the life-stream impure.

## The nerves thereby are starving and

## the whole system is languishing for

## new blood. In this condition many

## thousands have won back strong

## nerves and new health and strength

## through the new blood Dr. Williams' Pink Pills actually makes.

## In a weak or bloodless condition it

## is not only a waste of time and

## money, but a further menace to

## your health to tinker with common

## drugs. Follow the example of so

## many thousands by giving Dr. Wil-

## liams' Pink Pills a fair trial and they

## will transform you into healthy, ac-

## tive, robust men.

## You can get these pills through any

## dealer in medicine, or by mail at

## 25 cents a bottle or boxes for

## \$2.50 from The Dr. Williams' Medi-

## cine Co., Brockville, Ont.

## Von Tirpitz's Sympathy

## The fine Americans who are telling

## us all the time that this is a capital-

## istic war on our part have support

## and sympathy from their grand

## old friend, Admiral von Tirpitz, who

## started the submarine massacre. In

## a speech to the reactionaries in Ber-

## lin he casually remarked that if the

## Kaiser and God were to be defeated

## in this conflict it would be by "Anglo-

## American capital."—New York

NEWS ITEMS OF INTEREST TO PEOPLE OF THE CROWS NEST PASS

D. Palmer, A. P. P., has been transferred to Medicine Hat.

Mr. W. D. Lawson made a business trip to Natal Friday last.

Mrs. E. Carter, of Corbin, is visiting relatives and friends here.

Coleman's contribution to the British Red Cross Fund totalled \$142.60.

Corp. Haughton and Pte. Brindley arrived back in town this week.

Miss Ellen Vuori has joined the staff of the International Coal and Coke Co.

Mrs. James Scott has returned from quite a lengthy visit with Calgary friends.

Rev. W. T. and Mrs. Young, of Frank, were in town for a few hours on Monday.

Mr. A. C. Fraser, of Sydney, C. B., is the guest of his sister here, Mrs. Andrew McLeod.

Tony Werkover is the latest entrant into the automobile contest. Tony is already hard at work.

Manager Farrell, of the Italian Co. Operative association, made a business trip to Creston this week.

The Coleman orchestra go to Bellevue this evening to provide music for a dance being held there.

Mr. Frank Graham, jr., who has been holidaying with his parents here for a couple of weeks, returned Saturday evening to Medicine Hat.

Rev. Chas. H. Heustis, M. A., D. D., secretary of the Lord's Day Alliance for Alberta and British Columbia, will be in Coleman on Friday, November 2nd.

Mr. Harry Wheatcroft, who has been in Corbin for the past month or two, has returned to town to take charge of his campaign in the big automobile contest.

Candidates in the automobile contest made a clean sweep at Crow's Nest this week and last, and with three exceptions, every resident of that place is now on The Bulletin's subscription list.

A meeting of the Crow's Nest Pass Liberal association was held at Blairmore on Wednesday of this week to select delegates to attend a meeting to be held at Macleod, on the 27th instant for the purpose of discussing the nomination of a Unionist candidate for the Macleod riding. The following delegates were elected: George Kellock, T. W. Davies, George Clair, C. S. Ouimette, of Coleman, and Capt. Beebe, of Blairmore.

Mr. and Mrs. R. L. Thomas and children, of Morrist, B. C., arrived in town a few days ago to visit Mrs. Thomas' parents here, Mr. and Mrs. H. Gate. They may become permanent citizens of Coleman.

The family of Nicholas Romanoff, former emperor of Russia, now procures its food supply by the use of cards. The authorities in the Tobolsk district are issuing food cards and the Romanoffs must obtain their food the same as other citizens.

Fred Roo, in the Nelson News, says: "Good roads will increase health, happiness, education, religion, morality and grits. Victoria papers please copy. I'll pass the town, to hastening its improvement, where automobiles, trains and Ford turn out to go some better way."

The school board has started in to collect arrears of taxes by distress warrants. It is a drastic method, but the board needs the money and if it cannot be got in any other way, then we presume the law must be applied. The first warrant has been issued against August Verheis, of Bushtown.

The name of George Derbyshire appeared in a recent casualty list as wounded. Later advices state that he is suffering from gunshot wound in the thigh. Alex. Derbyshire has not yet fully recovered from an attack of pneumonia which he had several months ago. Tom, another brother, is now with the Royal Engineers.

The provincial compensation commission sat at Blairmore on Thursday last, and secured data from the different employers of labor as well as from prominent labor men of the district. This commission is composed of Mr. John E. Stirling, of the Provincial department of mines; Mr. McNeil, of the Operators' association, and Alderman Kinney, of Edmonton, a well known labor man of the north.

In an endeavor to cut down the H. C. of L. a combine of Pincher Creek merchants, Fraser-McRoberts, P. Burns, E. G. Ambrose and Co. and the Pincher Creek Providers, has been formed, and will have just one delivery outfit, the delivery to have certain routes at specified hours. This is expected to be an improvement all around, but the housewives will have to toe the mark with their marketing.

Mrs. E. MacDonald, who was absent from Coleman when the big automobile contest was started, and who has since been considering as to whether she would remain in the competition (having been nominated by a friend during her absence) informed the contest manager yesterday that she was going to

stay in the race till the last ballot is counted, on January 22nd next. "I am going to win that car," said Mrs. MacDonald, "and I now serve notice on my friends that I am going to give them a chance to help me win it."

Rev. Fr. Bajalski wishes to express thanks to Mayor Morrison and to Mr. Burns, of the McLaren Lumber Co., for their kindness and assistance extended to the sisters who were soliciting financial aid for the Lacombe Home last week. Gratitude is also expressed to the Slavonians and Polish, as well as English-speaking citizens, who recently contributed towards the purchase of a residence for Rev. Fr. Bajalski in Coleman.

District Deputy Hornibrook of the Victory loan organization at Calgary visited the Pass this week and organized a local committee to sell the war bonds in this district. Mr. O. E. S. Whiteside, of Coleman, was elected chairman of the committee, and Mr. J. Smith, of Blairmore, secretary. By subscribing to this loan you are not only helping to win the war but you are investing your money at 5 1/2 to 6 per cent. with the whole resources of the Government of Canada as security.

The last issue of the Alberta Gazette contains the notice of incorporation of the Polish Co-Operative Association of Coleman Ltd., which includes the following: Martin Biellie, Paul Kublin, Albert Kolzo, Martin Pioronek, Albert Yagos, Mike Rypien, Mike Chish, Jochan Adamek, Joe Klis, Charlie Mika, Mike Pietraski, Martin Mizera, Wojciech Lowita, John Kublin, John Rypien, J. C. Henry, A. P. Macdonald, Antony Karliner, Joe Kobylec, Paul Biellie.

The standing of the various candidates in the automobile contest will be announced in next week's issue of The Bulletin. It is too early in the game to hold back votes, and every candidate should put forth a supreme effort to have as big a count as possible by the evening of October 31st. Candidates should remember that their friends are watching their work and will feel more like lending aid and assistance if a good showing is made. Better get busy.

Mrs. F. G. Graham's class of young ladies went to Frank last evening and gave a splendid entertainment at the Frank Methodist hall in aid of the building fund in connection therewith. The program included the play-let put on in Coleman some time ago, "The Gypsies Festival," and also the sketch recently given in the parish hall entitled "Mrs. Jenkins' Brilliant Idea." Music was provided for the occasion by the Coleman orchestra and altogether a very enjoyable evening was spent. Quite a substantial sum was realized.

Remember the Hallowe'en dance in the opera house on Wednesday evening, October 31st.

## HOLD-UP AT BELLEVUE

Hands up! Fork over that dough! Such were the peremptory demands of a new-bud man who invaded the house of Mr. Joseph Robinson, of Bellevue, cashier for the P. Burns company, at about eight o'clock Saturday evening. The bold bandit flashed a couple of revolvers to sort of emphasize his unusual request and had his face suffly concealed behind a mask. But Mr. Robinson was game and grappled with the intruder, despite the fact that the latter was well armed. Two shots were fired at Mr. Robinson, but by quick work and pluck they were deflected and did no personal damage.

Lying on a nearby table were some eighty dollars in bills and a cigar box containing between three and four hundred dollars. The robber grabbed the eighty dollars, but in his haste to make a get away he completely overlooked the box, much to Mr. Robinson's relief.

The hold-up was apparently the work of local talent, as it was quite evident that the robber was fairly familiar with the ground he had to cover as well as the habits of his victim. The provincial police of Coleman were promptly notified and are working on the case.

Invictus Shoes
